...West of 98

(Continued from page 2)

Phrases like "hog killing weather" were created to identify the inherent connection between life's recurring duties and the seasons with which they were associated. Depending on your age, you may have lived within these intentional seasonal cycles, or your parents or grandparents did. If you are engaged in any manner of farming, gardening, or raising livestock or poultry, you probably still have some elements of seasonal cycles within your life. Without question, though, modernity has reduced life's depending on seasonal cycles.

it apart from all others! You can see five counties! The well is known as the best in the area, making it even more attractive! NRCS collaborated a few years back resulting in new fence on the south and west sides in addition to crossfencing. Native grasses and wildflowers were seeded after corridor grubbing was done to promote wildlife habitat and hunting. Electric runs the length of the front of the property. Secluded, though conveniently located, you are less than 15 minutes east of Bronte, 20 minutes west of Ballinger, 30 minutes north of San Angelo, and an hour south of Abilene. Nestled within larger ranches, the Colorado River, and FM 3115, you can be confident in knowing your peaceful seclusion will never be disrupted with traffic or noise.
