

ber is not in the database, you will not be called.” One of the reasons the CodeRED system was selected is it gives individuals and businesses the ability to add their own phone numbers directly into the system’s database, this is an extremely important feature.

“No one should automatically assume his or her phone number is included.” All individuals and businesses to log onto the Coke County website, www.co.coke.tx.us and follow the link to the “CodeRED Community Notification Enrollment” page. Those without Internet access may call 325-453-2641 and speak with the Coke County Judge’s office to supply their information over the phone. Required information includes first and last name, street address (physical address, no P.O. boxes), city, state, zip code, and primary phone number, additional phone numbers can be entered as well.

All businesses should register, as well as all individuals who have unlisted phone numbers, who have changed their phone number or address within the past year, and those who use a cellular phone or VoIP phone as their primary number.

CodeRED allows geographically based delivery, which means street addresses are required to ensure emergency notification calls are received by the proper individuals in a given situation. The system works for cell phones too, but we need to have an associated street address to provide relevant messages.

CodeRED gives those who want to be included an easy and secure method for inputting information. The data collected will only be used for emergency notification purposes.” Questions should be directed to the Coke County Judge’s Office at 325-453-2641.
