

# ROBERT LEE SCHOOL NEWS

**Robert Lee Robotics!** Robert Lee Robotics competed in the 11th Invitational Robotics contest held by Region 15 Service Center at ASU. Team SPARO, made up of Braden Richardson, James Wyatt, and Jasmine Rojas, competed in the Inventions portion of the contest with their pipe laying machine winning third place out of at least 10 schools in their division. The Invitational is a practice meet and first step to being able to go on to the TCEA state competition.

Drawing on Robert Lee past water shortages and the laying of the pipeline from Robert Lee to Bronte, Team SPARO's goal is to create and market a machine that would make this job easier. Each team must build a robot that can complete their task, program the robot, and then market the robot with a presentation, a business display booth along with brochures and cards. The team is using the new Lego EV3 robot bought from last year's sponsor contributions.

The team's next step is Area competition in Brady to qualify for State. They made a good start but have a lot of hard work ahead of them to compete in Area and qualify for State.

Robert Lee ISD has had teams participating in the Invitational for most of the 11 years the competition has been held and has had many teams winning positions allowing them to move on to state.
