LEAD AND COPPER MONITORING

City of Bronte has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in chapter 30, Section 290, Subchapter F. Public water systems are required to monitor for Lead and Copper and report the results of that monitoring to the TCEQ. During Summer 2014 we did not complete all monitoring and/or reporting for lead and copper, and therefore

TECQ cannot be sure of the safety of your drinking water during that time.

We are working to correct the problem, we will sample again in July 2015.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions

regarding this matter, you may contact Ricky Royall at 325-473-3501.
