PUBLIC NOTICE CITY OF ROBERT LEE January 30, 2012

The Texas Commission on Environmental Quality ("TCEQ") sets minimum water quality standards for public drinking water. One of these standards is a turbidity limit. Turbidity by itself has no health effects. However, turbidity can interfere with disinfection and provide a medium for microbial growth. Turbidity may also indicate the presence of disease-causing organisms. These organisms include bacteria, viruses, and parasites that can cause symptoms such as nausea, cramps, diarrhea, and associated headaches. These symptoms can be particularly severe in people who are not as resistant to infections as most of the population. If you experience severe symptoms please consult with your doctor to determine what actions you should take.

The Robert Lee Water System failed to meet the minimum treatment technique requirements during the month of January, 2012. Specifically, the turbidity level of our treated water was above 1.0

Nephelometric Turbidity Units.

The City of Robert Lee is in the process of installing an emergency water pipeline to the City of Bronte. Projected completion is six to eight weeks. This should prevent reoccurrence of this violation.

If you want more information about the nature and significance of this violation, you may contact City Superintendent, E. R. Roberts at 325-453-2831.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

... WCCCD Minutes (Continued from page 3)

And now, here we are at the end of the first month of a brand new year. Happy 2012,

everyone!

A quick glance at the calendar promises that the month of February will be a busy one.

The residents will be celebrating Valentine's Day playing Bingo and Trivia. Rumor has it that Elvis will be making an appearance at the Care Center on the 15th. I'm thinking it might be wise to pay a visit to the dining room about 3:30 to see if this rumor can be substantiated.

The monthly birthday party will be sponsored by AON on February 23, at 6:30 pm. Several residents are celebrating birthdays this month. The list includes Cuin Norvell, Elisabeth Reed, A. R. Bagwell, Opal Floyd, Brenda Gilbreth, Dorothy Brown, Marie Lewis, and Charlotte McKnight. Come by, wish these dear ones a very Happy Birthday, and join the celebration. The Sing-a-long will be held February 24, and it's always such fun to see the dining room filled with residents and visitors alike rattling the rafters with joyful song! Until next month, we wish everyone a Happy Valentine's Day!

Check Out Coke County Library

For all the John Grisham fans who want their kids to learn to like Grisham's books, the Library has a copy of Grisham's Theodore Boone: Kid Lawyer. According to one blurb, Theodore Boone is a "nosy, crime-obsessed kid." No student should sit down with this book unless they want to read for a while.

Also, a recent autographed copy donation by a Library patron is available. Navy Seal, Chris Kyle, was recently at Hastings in San Angelo for a book signing. He is a Texas author who has written about his experiences in the U.S. military. The book is titled American Sniper: The Autobiography of the Most Lethal Sniper in U. S. Military History. One of the contributing authors to the book also writes novels with Dale Brown.

Library hours are Tuesdays,

8-12; Wednesdays, 8-4; Thursdays, 1-5; Fridays, 8-12. Call 453-2495 for information.

\$1000.00 REWARD

for information leading to the arrest and conviction of the scumbag that vandalized our property on Jan 7 2012.

"Some cruel actions warrant harsher punishments even on the first conviction. For cruelty offenses involving the torture, killing, seriously injuring, poisoning, fighting, or tripping of an animal, a state jail felony may be imposed on the first conviction. If a defendant is convicted three times under these harsher penalties, he may be subject to a third degree felony sentence, which translates to imprisonment ranging from 2 to 10 years and a possible fine of up to \$10,000." This is verbatim from the website cited below.

On January 7, 2012, a person or persons shot toward our home, our yard, perhaps with a 22, at our pet cat. She was a very easy target, as she moves like a sloth and rarely leaves our porch. She may even have approached the perpetrator as she is trusting and friendly. Though intent to kill was blatant, the vandalizer was not able to kill her. The bullet went through her left hind leg and came out her abdomen. She has gone through suffering and pain. She has made it through surgery. She is still recovering. We have gone through terrible moments of anguish during these last few weeks.

If you have any information or have heard rumors about anyone shooting defenseless creatures, please call us at 473-1043.

To the village idiot who shot our pet: Morons like you are the reason our gun rights are under scrutiny. You and others like you create the problems that liberals cite when trying to take away our right to arms. Whether you are 14 or 40...I get verklempt when I think how proud you must make your parents...you disgust me.
