Coke County Water Supply Corporation awarded grant

The Texas Water Resources Institute (TWRI) announced on December 19, 2019, financial assistance in the amount of \$300,000 to fund the development of the Drinking Water Supply Corporation (DWSC) in Coke County. The Corporation will use the assistance to finance water supply, design, and construction costs associated with the water supply project. The assistance is provided to the Corporation by the TWRI. The Corporation will use the assistance to finance the construction of a water supply system, including a well, pump station, and distribution system. The Corporation will also use the assistance to finance the construction of a water treatment plant. The Corporation will also use the assistance to finance the construction of a water treatment plant.

SPECIAL OIL & GAS SECTION

By Michelle McCall, Publisher
Many Coke County citizens view the oil boom positively, but some are concerned about the impact on the environment. The oil boom has brought many jobs to the county, but it has also brought some challenges. One of the biggest challenges is the impact on the environment. The oil boom has led to an increase in drilling activity, which has resulted in more oil spills and leaks. This has caused a lot of concern among residents who are worried about the impact on the environment. The oil boom has also led to an increase in traffic, which has caused a lot of concern among residents who are worried about the impact on the roads. The oil boom has also led to an increase in the price of oil, which has caused a lot of concern among residents who are worried about the impact on the economy.

Workover Rig Southeast of Robert Lee

The workover rig is a large piece of equipment used to maintain and repair oil wells. It is used to perform a variety of tasks, including drilling, cementing, and repairing. The workover rig is a complex piece of equipment that requires a lot of skill and experience to operate. The workover rig is a large piece of equipment used to maintain and repair oil wells.
