Walk Across Texas to kick off next month in Robert Lee

Walk Across Texas! is a 12 week program for teams of 8. Teams have a friendly competition to see who can log the most miles walking, jogging, or biking. You can even log miles by dancing, doing aerobics, or riding a stationary bike! Everyone's miles are recorded on the Texas map posted in a public place so everyone can see your progress. The team that walks the farthest "across Texas" will win, but everyone who participates will take home a healthy habit-walking for fitness! Start forming teams

today!!

Join Us at our Walk Across Texas! Kick-Off event Thursday, April 6. Here, you will sign your team up or have the chance to join a team, sit in on a 30 minute talk about goal setting, and have the chance to explore different "health booths." Doors open at 5 pm with the program starting at pm.

On May 11, we will meet for a mid-program update where teams will check-in and update everyone on their progress. There will also be a 30 minute presentation on the importance of staying hydrated during physical activity. Multiple healthy recipes will be demonstrated and be available for tasting. Doors open at 5:45 pm with the program starting at 6 pm.

The program will end June 22. At this meeting, we will "celebrate" the accomplishments we made and tally up the final count of miles that were walked! Doors open at 5:45 pm with the program starting at 6 pm

The program is free of charge and incentive items will be distributed throughout the program!

Kick-Off event, mid-program update, and Celebration Ceremony will be held at the Robert Lee Rec Hall.

For questions or more information, please contact Kandice Everitt at 325-453-2461 or by email at kandice.everitt@ag.tamu.edu.

Watch for slow moving vehicles on Coke County roadways

Spring is one of the busiest times in agriculture, and more farm equipment can be found on Coke County roads as planting season begins.

"Spring brings more farm activity, and that means more slow moving vehicles on the roadways," John Ross Copeland, Coke County Farm Bureau president, said. "Farmers are moving equipment to the field and ranchers are hauling livestock to different pastures."

Farm equipment moves slower than other vehicles on the road, which is why John Ross urges motorists to drive safely.

Due to the size of farm equipment and the narrowness of many rural roads, tractors, combines, plows and planters often have difficulty moving to the side or shoulder of the road.

"Drivers should use caution when coming around a sharp turn or topping a steep hill because they can come upon slow moving vehicles like farm equipment," John Ross said. "Farmers and ranchers should also do their part to share the roadways."

Data from the Texas Department of Transportation (TxDOT) shows accidents involving farm equipment on rural roads has slightly increased from 197 accidents in 2011 to 233 in 2015.

"We know our equipment moves slowly, but we ask other motorists to be patient," John Ross said. "We all want to get home safely and that takes all of us sharing the road together."

During March 5-11, the American Farm Bureau Federation (AFBF), through a coordinated effort with the National Institute for Occupational Safety and Health (NIOSH) Ag Center, will hold the Ag Safety Awareness Program (ASAP) to raise awareness for the most important health and safety challenges faced by agriculture during March 5-11.

The theme of the safety awareness program is "Get Out of My Space," and each day of the week will highlight a different safety focus. AFBF will provide webinars on at least two of the themes.

More information on the program can be found at <https://www.facebook.com/AgSafety/>.
