Displayed works include oils, acrylics, watercolors, bronzes, metal, ceramics, wood and stone, and all may be viewed at the Fort's Commissary and Quartermaster Buildings.

Additionally, the young artists' display, sponsored by Jud Gray, may be viewed in Barracks 6, just west of the Commissary. This unique exhibit showcases the works of local and area high school students and affords them an opportunity to experience public recognition of their talents.

Special activities on Saturday, March 23 include hearing local artists discuss their works throughout the day as well as a featured performance at 10:30 a.m. Saturday by singer/guitarist George Ensle who's appearing in San Angelo as a guest musician for the Cultural Affairs Council. He has five albums to his credit, shared the stage with legends such as Guy Clark, Townes Van Zandt and Jerry Jeff Walker and has taught songwriting to numerous young students.

"We are honored to provide this unique opportunity for the public to see the tremendous artistic talent in this area, and at the same time, provide an avenue of support for West Texas Rehab Center," said WTRC President Woody Gilliland.

For 60 years, West Texas Rehab's mission has been to improve the quality of life for children and adults with disabilities, regardless of their financial status. A private, non-profit organization, WTRC has outpatient facilities in Abilene, San Angelo and Ozona.

More information is available about the Stribling Art event or WTRC services by calling 325-223-6300 or by visiting the Center's website at www.WestTexasRehab.org.

**CRP sign-up slated**

The U.S. Department of Agriculture (USDA) will conduct a four-week general sign-up for the Conservation Reserve Program (CRP), beginning May 20 and ending on June 14.

Additional sign-ups for continuous CRP programs will be announced in spring 2013.

Currently, about 27 million acres are enrolled in CRP, which is a voluntary program available to agricultural producers to help them safeguard environmentally sensitive land. Producers enrolled in CRP plant long-term, resource-conserving covers to improve the quality of water, control soil erosion

and enhance wildlife habitat. Contracts on 3.3 million acres of CRP are set to expire on September 30, 2013. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP. Producers that are accepted in the sign-up can receive cost-share assistance to plant long-term, resource-conserving covers and receive an annual

rental payment for the length of the contract (10-15 years). Producers are encouraged to look into CRP's other enrollment opportunities offered on a continuous, non-competitive, sign-up basis and that often provide additional financial assistance.

For more information on CRP and other FSA programs, visit a local FSA service center or www.fsa.usda.gov.
