

RLHS Prom! The Robert Lee High School Prom was held Friday evening, May 20, 2011, at the Cactus Hotel in San Angelo. Luke Sheldon and Heidi Austin (above) were named the King and Queen of this year's prom. Enjoying the evening were the RLHS Seniors (top right photo) and the RLHS Juniors (bottom right photo).

Robert Lee City Council posts minutes

The Robert Lee City Council met in regular session Monday, May 9, 2011. Those present were Mayor John Jacobs and Council Members Janie Munoz, Troy Wimberley, Richard Johnson, Gary Payne, and Sid Burns. City Staff present were Kay Torres and E. R. Roberts.

The bills were presented for approval. Following questions, Gary Payne moved to approve the bills for payment. The motion was seconded by Troy Wimberley. The motion carried.

The minutes of the April 11, 2011, meeting were presented for approval. Gary Payne made a motion to approve the minutes, seconded by Janie Munoz. The motion carried.

Ken Martin, Jacob and Martin Consulting Engineers, presented an engineering report for the Water Supply Feasibility Study for the City of Robert Lee. In September 2010, the Robert Lee City Council, along with the City of Bronte and Coke County Water Supply, entered into a contract with Jacob and Martin to prepare a feasibility study for future water supplies, available water resources and financial resources. The Water Study, comprised of several options and availability of ground water sources, projected cost and financing data. The report included conclusions and recommendations based upon the data compiled. This report will be further reviewed by the City Council and staff for comments prior to final acceptance.

Mayor Jacobs reported that drillers have started the ground water project on the Water Valley divide for potential development of an additional water supply

source for the City of Robert Lee. Plans are to do three test wells. The City Council will be updated on their progress each month.

The City Council considered a request from Ricky and Reba Green, 224 Ross Street, to close the undeveloped portion of Ross Street from 2nd to 3rd Street. Mr. and Mrs. Green presented a survey, prepared by SKG Engineering, which showed a portion of their property conflicting with the above mentioned undeveloped portion of Ross Street. A lot owned by Stanley Adams also conflicts with this portion of Ross Street. Following discussion, Troy Wimberley moved that the council approve the closing of this undeveloped portion of Ross Street with any utility easements granted. The motion included a provision that any and all costs involved would be the responsibility of these adjacent land owners, Mr. and Mrs. Green and Stanley Adams. Consideration was given to the fact that Stanley Adams might or might not be

interested in acquiring the additional footage. The motion was seconded by Sid Burns and the motion carried. Notification will be made to Stanley Adams.

Also considered as requested by Mr. and Mrs. Green was a 30' right-of-way easement on 2nd Street and Ross Street to allow for fences that extend the right-of-way on 2nd Street. Following discussion, no

action was taken.

Darin Clawson, president of Mountain Creek Golf Course, presented a request for variance from the recently implemented outdoor water restriction plan. Mountain Creek Golf

Course has one green, one T box, and the Club House on city water. This accounts for approximately one-ninth of the course. The remaining course is watered with effluent water from the city's wastewater
