Nine out of Ten Texans Buckle up, but Nearly Half Killed in Crashes Are Unbuckled!

This Year's Click It or Ticket Campaign Is May 19 to June 1.

While 9 out of 10 Texans buckle up, too many drivers and passengers continue to risk injury or death by not using seat belts. According to TxDOT, in 2013, of all people killed in vehicles in Texas, nearly half were reported as not wearing a seat belt at the time of the crash. Pickup trucks are so popular in Texas, but almost half of our

pickup truck drivers killed in crashes were not wearing a seat belt.

After so many years of having seat belts standard in vehicles, it would seem that buckling your seat belt before driving off would be second nature. Fortunately, most of us do buckle up, but some, especially pickup truck drivers and their passengers, depend on their bigger pickup truck to protect them in a crash. Yet, pickup trucks are twice as likely to rollover than passenger cars, and pickup truck crashes can be especially serious – even deadly – due to their tendency to roll over and for unbelted occupants to be thrown from the vehicle.

Unbuckled passengers can also be deadly to others in the vehicle. Most people are not aware of the dangers posed by

unbuckled backseat passengers. In a crash, they can become projectiles that are tossed around inside the vehicle, injuring or killing those in the front seat. Riders in the back seat who use lap and shoulder belts are 44% more likely to survive in a crash than unrestrained occupants in passenger cars, and 73% more likely to survive in passenger vans and SUVs.

According to the National Highway Traffic Safety Administration (NHTSA), young adults are dying at a disproportionate rate because they are not wearing their seat belts. Sixty-two percent of 18- to 34-year-old passenger vehicle occupants killed in crashes were not wearing their seat belts.

When the Click It or Ticket campaign began in 2002, just 76

RLISD bad weather make-up days

The Robert Lee ISD has announced that Friday, May 16, 2014, and Friday, May 23, 2014, are now both instructional

days to make up for time lost due to winter weather. Classes will now be held on both days.

The state requires two bad weather days during the spring semester to be built in to the district's academic calendar. Bad weather make-up days designated in the approved 2013-14 academic calendar were May 16th and May 23rd. The bad weather day used on December 6 caused the make-up day of May 16 to become an instructional day. The bad
