Check Out Coke County Library

A snow cone waits for Hannah Mertz and Zach Avants at Rhonda and Judy's bright yellow stand. Their names were drawn on Friday for the free treat. Their names will also be entered in the final drawings for a supreme pizza from the Pizza Barn.

For each book returned during the summer, readers are eligible for one entry in the Friday drawings.

And, their names will be added to the final drawing collection for a supreme pizza.

Some readers have reported that they are already tired of TV.

When a reader finds a book that interests their brain, he or she will not be bored. Reading as a recreational activity is just like watching TV. If you don't like the book, find another one. If the book you are reading for fun is not making you happy - find another book that will. Books to make readers happy line the shelves at the library. Browsing the library is like using the remote control to find a satisfactory show and you can fast forward through a recreational book if you

want to.

Library hours are Tuesdays, 8-12; Wednesdays, 8-4; Thursdays, 1-5; Fridays, 8-12. Call 453-2495 for information. Books may be returned in Bronte to the Main Street Market.

Letters to the Editor

Dear Editor,

I feel that a recent political ad by unnamed persons calling themselves "Concerned Alumni" disparaged the Bronte schools and offended many of us. As a former teacher, I am compelled to respond. The anonymity of their ad is perplexing. Who are they? How many are there? What are their ages? Are they my former students?

Surely they realize that many factors affect the college experience. Universities differ in their requirements for academic success, and courses of study within a college also vary greatly in difficulty. It is generally understood, though, that college is more difficult than high school.

Colleges and public schools are different in many ways. Their primary goals are different. A college offers intense, directed focus on a specific area of study. Public schools are directed by the

state to offer basic education for the entire population. The basic education is a fundamental prerequisite for entering college, and many high school graduates do go on to attend college, with varying degrees of success. I know that many Bronte graduates have been successful in attaining college degrees.

Colleges demand a higher degree of personal responsibility than high schools do. Their courses require more hours of study. Many professors expect three hours of homework for every hour of classwork.

All young people come to a time in life when they realize they must work, and work hard, to achieve a chosen goal. This realization often comes during the first year or so of college, but it also comes to high school graduates who do not attend college. It's a part of growing up.

Furthermore, I cannot agree with the ad that athletics are overemphasized. The athletic program builds character. Among the beneficial results developed are a sense of responsibility and the expenditure of effort to

HOW TO KNOW GOD

Jesus saith unto him, I am the way, the truth, and the life: No man cometh unto the Father, but by Me. • *John 14:6*

For there is one God, and one mediator between God and men, the man Christ Jesus. • *1 Timothy 2:5*

Then said Jesus unto them again, verily, verily, I say unto you. I am the door of the sheep. All that ever came before me are thieves and robbers: But the sheep did not hear them. I am the door: by Me if any man enter in, he shall be saved, and shall go in and out, and find pasture. • *John 10:7-9*

Whosoever denieth the Son, the same hath not the Father: (but) he that acknowledgeth the Son hath the Father also. • *1 John 2:23*

He that hath the Son hath life; and he that hath not the Son of God hath not life. • *1 John 5:12*
