## Protect your family from Mosquitoborne disease

Submitted by Morgan Runyan, Texas AgriLife Agent

The recent rains have been a huge blessing to Coke County but not everything that comes after is a blessing. The puddles that have formed and the various containers that have filled with water are great breeding grounds for that pesky mosquito. The Aedes aegypti mosquito has been identified as the primary vector for transmission of Zika, dengue, chikungunya, and West Nile. The Zika virus has had a large spotlight in the media recently and for good reason. Zika virus is the cause of the increased cases of microcephaly. Microcephaly is a condition affecting unborn children where the baby's head is much smaller than expected due to the underdevelopment of the baby's brain. So far there have not been any confirmed cases of Zika caused by mosquito populations in the state of Texas. Those that have been infected by the bite of an infected mosquito have either traveled to an area with Zika carrying mosquitos or their
