'Tis the Season for Agriculture, Baseball and Mother Nature

by Juan M. Garcia

State Executive Director - Texas Farm Service Agency
What does agriculture, baseball and Mother Nature have in common? Any farmer or rancher will tell you, without hesitation, that in the competitive industry that is agriculture, Mother Nature ALWAYS bats cleanup and nine times out of 10, she bats for the opposition - she'll make or break you every time.

To date, crop year 2011 has been exceptionally tough for our farmers and ranchers. That which isn't drying up from drought, burning up in wildfires or blowing away in tornadoes is being swept downstream by torrential flooding. It's an unfortunate reality that somewhere in the U.S., this very minute, a farmer or rancher is battling the elements - and as most agricultural producer know all too well... you win some and you lose some. So what happens when you lose?

Prior to the 2008 farm bill, a row crop or livestock producer was at the mercy of lawmakers to approve ad hoc

funding for emergency disaster assistance. It literally took an act of Congress for USDA's Farm Service Agency (FSA) to get much-needed recovery assistance to producers impacted by natural disasters. The process was tedious, time-consuming and budget dependent.

Fast forward to the 2008 when Congress passed legislation providing for five "permanent" disaster assistance programs - the Supplemental Revenue Assistance Payment Program (SURE), Livestock Indemnity Program (LIP), Livestock Forage Disaster Program (LFP), Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP) and the Tree Assistance Program (TAP) are all administered by FSA.

So, how "permanent" is permanent? The truth is; these disaster assistance programs are only "permanent" for the life of the 2008 farm bill. As of September 30, 2011, the legislative authority for these five programs expires and they will, in essence, cease to exist.

What does this mean to you, the producer?

It means that, although we hope a farmer or rancher never requires disaster assistance, no industry is more vulnerable to nature's wrath than agriculture and the odds are, if you're in the industry very long, you will indeed experience your fair share of setbacks - compliments of Mother Nature. Permanent disaster legislation offers producers some peace of mind that, in time of need, FSA can be immediately responsive.
