 1 package Ticonderoga #2 pencils sharpened
 3 Elmer’s brand glue sticks, jumbo
 1 package index cards
 4 composition notebooks
 2 plastic purple folders with brads and pockets
(Continued on page 7)

No active cases in Coke County

According to Coke County Judge Hal Spain, as of press time, there are no active cases of Covid-19 in Coke County. Although five cases of Covid-19 have been reported in Coke County since the pandemic began in March, two of those cases can no longer count against Coke County. The first case attributed to the county was a false positive and the last case

was found not to be a resident of Coke County. The three actual cases were in one family. Unfortunately, one of these cases ended with the death of a 70 year old woman.
 Around the middle of June, new daily cases began to rise and reached a high of 5,996 new daily cases on June 25. This number has fallen since and was at 4,283 on Monday, June 29,

2020. The number of active new cases also saw a high on June 25 with 4,351 new active cases. This number has also fallen since and was at 2,912 on Monday, June 29, 2020. The number of new fatalities also saw a high on June 25 with 47 new fatalities. The number has fallen since and was 10 on Monday, June 29, 2020. However, hospitalizations continue to increase with 5,913 Texans hospitalized with Covid-19 on Monday, June 29. Testing continues to be high averaging

almost 40,000 Texans tested per day.
 All of the percentages are looking worse the last half of June with one exception – the fatality percentage. This figure has fallen each day of the month and comes in at 1.57% on June 29, 2020. This is wonderful news in that only 1.57% of all those in Texas diagnosed with Covid-19 lose their lives to the virus.
 A look at our neighboring counties shows increasing numbers for most. In Tom

Green County, there are 280 confirmed cases, 172 of which are active. There are 5 confirmed cases in Runnels County with 3 active cases. Taylor County has 352 confirmed cases, 68 of which are active. Nolan County has 33 confirmed cases, 30 of which are active. Mitchell County has 4 confirmed cases, 3 of which are active. Sterling County is our only neighboring county to have not had any confirmed cases of Covid-19.
