... Zika

(Continued from page 3) partner has. Zika is very serious and experts are unsure what the future holds for the Zika virus in

the US. Please consider these tips to help protect yourself and your family from mosquito borne diseases:

1. Dress in long, loose-fitting, light colored pants and shirts
2. Drain any standing water from containers, tires, gutters, etc. around the home.
3. Use mosquito dunks in standing water that cannot be drained. (A mosquito dunk is a small, brown donut-looking object that floats on water and slowly dissolves, releasing a bacterium that kills mosquito larvae.
4. Reduce outdoor activity during dusk and dawn. I understand with long days and lots of summer activities this can be difficult, so if you are going to be outdoors during this time of day be prepared with a bug spray containing DEET approved by the EPA or CDC to

protect yourself and all of your family from those pesky mosquitos.

For more information about traveling to areas that are affected by the Zika virus please go to <http://wwwnc.cdc.gov/travel/page/zika-travel-information>.

Addition information on Zika can be found at these websites for the Texas A&M University

System: <http://preventingzika.org> and <https://vitalrecord.tamhsc.edu/zika360>.

For more information about mosquito types, biology and control, go to <http://mosquitosafari.tamu.edu/>.
