### ...Neighborhood Watch

(Continued from front page)

In the aftermath of the September 11, 2001 terrorist attacks, the need for strengthening and securing our communities has become more critical and, as a result, Neighborhood Watch groups have taken on greater significance. In addition to serving a crime prevention role, Neighborhood Watch can also be used as the basis for bringing neighborhood residents together to focus on disaster preparedness, emergency response, and

terrorism awareness.

The national program changed with the transforming role of the Neighborhood Watch groups. That is why in 2002, the National Sheriffs' Association, with a grant from the Bureau of Justice Assistance, Office of Justice Programs, U.S. Department of Justice launched USAonWatch.org.

In 2013, the funding from the grant came to an end and the National Sheriffs' Association absorbed USAonWatch into National Neighborhood Watch—A Division of the National Sheriffs' Association. National Neighborhood Watch is a membership based program in which citizens can join and gain access to resources to support, start, or re-vitalize their Neighborhood Watch groups.

### Water well owner training set for August 22

A Texas Well Owner Network training has been scheduled for August 22 in San Angelo.

The Texas Well Owner Network, or TWON, program is for Texas residents who depend on household wells for their water needs, allowing them to learn more about how to improve and protect their community water resources.

The Well Educated training, which is free and open to the public, will be from 8 am until noon at the Tom Green 4-H Center, 3168 N. U.S. Highway 67.

"The TWON program was established to help well owners become familiar with Texas groundwater resources, septic system maintenance, well maintenance and construction, and water quality and treatment," said Dr. Drew Gholson, Texas A&M AgriLife Extension Service program specialist and the program's coordinator, College Station.

Gholson said participants may bring well-water samples to the

training for screening. There is a fee per sample, which is due at the time samples are turned in.

"Water samples will be screened for nitrates, total dissolved solids and bacteria," he said.

Well owners who would like to have their well water sampled can pick up two sample containers from the AgriLife Extension offices in the following counties and addresses:

- Coke County, 13 E. 7th St., Robert Lee
- Tom Green County, 113 W. Beauregard Ave., San Angelo
- Irion County, 209 N. Parkview, Mertzon
- Schleicher County, 203 S. W. Main, Eldorado
- Runnels County, 608 Sealy Ave., Suite A, Ballinger
- Sterling County, 609 4th St., Sterling City
- Concho County, 159 N. Roberts St., Paint Rock.

Gholson said bringing water samples to the training is not required, but those wanting to have water samples analyzed must attend. Attendees can register at <http://twon.tamu.edu/training> or by calling 979-845-1461.

The training is one of several being conducted statewide through the Texas Well Owner Network project.

"The core content of this program is the same as other trainings, but the information is tailored to local water quality issues and aquifers," Gholson said.
