

Robert Lee Cheerleaders & Mascot

The Supreme Court and many of the other federal courts have been seeded with socialistic liberal judges who will rule in his favor on virtually anything tried before them, thus ending the rule of constitutional law.

And he's changing the face of our military. Several Pentagon officials are noting that there is an increase in the enlistment of radical Muslims into the military where they get all the training they need on weapons and defense systems. We have no idea how many of them there are in the armed forces or what positions they may hold.

Obama has been wielding executive powers this year as if he were already a dictator. When Congress is not doing his bidding, he simply bypasses them and uses an executive order to accomplish it anyway. This has set the stage for his disbandment of Congress. He would not be the first world leader to take control of a nation and disband the legislative branch of government.

Obama has been very effectively using the media to anesthetize the public to the dangers he poses. Like someone being prepared for surgery, most of us are numb to the changes and won't have a clue what took place until we wake up one day and realize that our free America has been removed and replaced with a regime that may parallel those of Stalin, Lenin, Mussolini, Hitler and Castro.

It can happen here and I am very afraid that it will.
